NEWS RELEASE

Public Works Department

Date: June 25, 2019
To: All News Media
From: Kendrick Glover, PE, Project Engineer
Subject: **2019 Bituminous Surface Treatment Seal Coat Construction**

Beginning Monday, July 1st and continuing through Friday, July 19th, several Kennewick streets will be impacted by the City of Kennewick's annual chip seal maintenance program. The construction is scheduled as shown on the attached sheet.

The initial placement of oil and rock will be followed by sweeping the following night. Approximately a week after the placement of the chip seal, the road will have a second application of oil applied in order to help keep the rock in place

Please allow extra time for trips as traffic may be delayed for up to 30 minutes. Inclement weather may delay the attached schedule. Slower speeds and your patience are appreciated during construction.

If you have any questions, please call 585-4419

For additional information please go to the City web site at www.go2Kennewick.com
